HOW IT WORKS

Ivy works *where you work*.

HOW YOUR TEAM REACHES HER

Slack team channels & DMs
Email her own inbox
iMessage direct messages
WhatsApp chats & groups
Telegram DMs & groups

Your senior teammate

Runs protocols and workflows ad-hoc & on schedule, custom-built to your firm's operational model, safer and more reliable than out-of-the-box solutions.

WHERE SHE DOES THE WORK

YOUR WORKSPACE
Gmail · Calendar · Drive · Docs · Sheets
YOUR DATA & CRM
Affinity · Airtable · Supabase · PitchBook
MARKETING & SOCIAL
LinkedIn · X · Newsletter · Podcast

RUNS ON Anthropic Claude · OpenAI · Google Gemini · Perplexity · local models, on-prem

the right model for each job.

ONE HIRE, SIX ROLES

Ivy does the work of 6 roles, *taking over 80% of their work*.

Ivy doesn't sit in one seat — she moves across the org chart as the work demands. A selection from the 100+ protocols she already knows how to run; pick the ones that match your firm and we build the rest.

01
Chief of Staff

Weekly digest
Calendar briefs
Meeting memory
Board prep
Philanthropy admin

Competitive tracking

05
Engineer

Dashboards & tools
Integrations & pipelines
Custom reports
Document automation
Website updates

06
Executive Assistant

Inbox triage
Scheduling & travel
HR onboarding
Conference scouting
Groceries & supplies

IVY IS AN EMPLOYEE, NOT A TOOL

Ivy is custom built for your firm & workflows, *not a single seat*.

	IVY	A SINGLE AI SEAT · CLAUDE DESKTOP, CHATGPT
What it does	✓ Builds tools, owns inboxes, runs protocols	✗ Answers questions inside a chat box
Customization	✓ Custom setup for your firm & workflows	✗ Out of the box; no customization
Memory	✓ Firm & team memory — people, projects, decisions	✗ One individual's memory, trained over time
Who it serves	✓ The whole firm, with roles & approval levels	✗ One personal login; no roles or oversight
Availability	✓ 24/7 on and available, works proactively in the background	✗ Runs while the app window is open
Where it lives	✓ Slack, Telegram, WhatsApp, iMessage & email	✗ A desktop chat window
Team workflow	✓ Shared protocols the team can view & edit	✗ Prompts live and die with each person
Models & cost	✓ Routes across models; local on-prem for sensitive work	✗ One model family; every token to the cloud

A seat serves whoever is prompting it. Ivy knows your whole firm — and works for it.

BUILT IN-HOUSE FOR OUR OWN FAMILY OFFICE

Ivy delivers a 10× ROI already. *6 hires for the price of 1.*

PROVEN IN-HOUSE · LIVE TODAY

250+ workstreams live
14 people supported
6 FTEs of work delivered

\$10,000 / month, all-in

SIX HIRES · NEW YORK MARKET BASE

Chief of Staff	\$195,000
Controller	\$160,000
Engineer	\$170,000
Senior Analyst	\$130,000
Analyst	\$105,000
Executive Assistant	\$90,000

Average base **\$141,667**

FULLY LOADED · YEAR ONE

Base salaries (6)	\$850,000
Benefits & payroll taxes	\$212,500
Recruiting & hiring	\$51,000
Training & ramp-up	\$34,000
Seats & software	\$54,000

Total, year one **\$1,201,500**

IN-HOUSE CASE STUDY EXAMPLE \$120,000 a year for Ivy at \$10k / month, against \$1,201,500 for six hires. 10× on every dollar spent.

Pick one workstream you keep putting off. *Let Ivy take it.*

Scope & vault build → implementation → training & protocols. One to two FTEs of output in 30 days, or your money back.
